Missing Value Handling and Data Subsetting

1. Replace missing value with mean.
2. Drop default status column. (Last one)
3. Select top 2000 rows.
4. Select this column LIMIT_BAL, AGE, BILL_AMT1, PAY_AMT1
5. Select those data only who has , BILL_AMT1 more then 50000.
6. Check the correlation on BILL_AMT1 vs PAY_AMT1.
7. Rename the column BILL_AMT1 as Bill_amount and PAY_AMT1 as pay_amount.
